Anniversary Exercises and Annual Social at the Hall.

Thursday evening the annual social and anniversary exercises of F. M. C. A. were held in the hall. The attendance was not so large as it generally is at these interesting meetings, probably owing to the inclement weather, yet the hall was comfortably filled. Among those present were noticed Hon. C. R. Bishop, Mrs. W. F. Allen, Rev. Alex. Mackintosh, Rev. H. H. Gowen, Mrs. J. A. Hopper, Miss Hopper, Mr. and Mrs. J. Bushee, Messrs. T. R. Walker. W. W. Hall, A. D. Bissell, Rev. E. G. Beckwith, D. D., Mr. and Mrs. E. C. Damon, Miss Beckwith, Rev. Dr. C. M. and Mrs. Hyde, Viscount Torie and a number of Japanese.

Mr. T. R. Walker, the newlyelected President, occupied the chair, and the meeting was opened by the singing of the hymn "We're Marching to Zion," Miss Beckwith presiding at the piano. Then the Rev. H. H. Gowen read from the Scriptures at the same time giving a few explanatory remarks. The Rev. Dr. Beckwith offered up prayer.

Mr. H. W. Peck read the report of the Devotional Committee. There had been two committee meetings during the year. The committee had not carried out all the work planned. There had been plenty of willing workers, and several of the younger members had lead at meetings. The largest attendance at a Sunday evening meeting had been 73, smallest 22: average attendance, 45. Mr. T. S. Southwick read the re-

port of the Committee on Temperance. There had been many discouragements during the past year. The Blue Ribbon League entertainments had been attended only by a certain class, and the committee recommended frequent temperance lectures. The committee were not discouraged with the year's work. Mr. Theo. Richards sang a song

which was well appreciated, and then Rev. C. M. Hyde read the report of the Committee on the Hawaiian Branch, giving an interesting account of the work that had been done at the Queen Emma Hall the past year.

The report of the Treasurer, T. S. Southwick showed: Balance on hand from last year \$74 40; total receipts \$4,409 75; expenditures \$3,782 68; expenditures at Queen Hall \$624; total expenditure \$4,406 68; cash in hand \$3 07.

Mr. S. D. Fuller the general secretary read his report which showed a year of substantial advancement. Thirty new members had joined during that period and there were 130 active members on the roll.

Mrs. E. C. Damon and Miss Beckwith rendered a vocal duet with good effect after which Mr. Walker read the following address by the retiring President, Mr. Henry Water-

The silent power of mighty unseen forces around us is some thing, that in our life, so full of the hurry and rush of human affairs, we are apt not to take the time properly God in Christ Jesus." to consider. These forces are around us on every hand, and are so familiar that we lose sight of and fail to appreciate their power. Influences for good or evil are so insidious and imperceptible that we do not notice them until we are amazed at their results. We find these forces in the spiritual world, in literature and in nature. How often do we stop to consider the silent power of the light that gladdens our eyes; or the power that may lie in the water we drink: or the power that may be in the air we breathe; or in the gentle winds that blow. The power of gravitation, of electricity, of heat, of chemical action, and a thousand other influences that are silently working around us every day are familiar to all, but are only slightly understood. The highest example that we have of the influence of a silent power is that which comes to us from the little manger in Bethlehem. The advent of the Messiah himself was announced silently, and with little no-tice from men, "for Christ, like the sun, rose in noiseless stillness." The influence of that quiet life on earth has already accomplished what earth's greatest conquerors have failed to do. It has revolutionized society, brought into subjection the hearts of men, and will continue to conquer till "at the name of Jesus every knee shall bow, of things in heaven, and things under the earth. and every tongue shall confess that Jesus is Christ the Lord." God, with the influence of his Holy Spirit, is using means to perfect his great ends. These means are many and varied in their operation. The church must always stand at the head; and under the church, other organizations, which are proving silent powers to accomplish his will." We believe that the power of the

agency this is, and what a career of usefulness is before it, when it shall have attained its full development! The Young Mens' Christian Association in London, generally known as the "Parent Association," was organized in 1844 through the efforts of George Williams, an earnest

Christian young man 23 years of age,

and at that time a junior clerk in a

Young Men's Christian Association

much has already been accom

plished, there are better things yet

to be realized. At a recent men's

meeting held in Detroit, in response

to the question"how many men pres-

ent have become Christians and

through the influence of this asso-

cistion " one fifth of the entire

audience arcse. What a marvelous

large dry goods establishment, of which he has since become the head. There are now 3.788 associations distributed throughout the world, in North America, and Europe, in Turkey, Syria, India, Ceylon, China, Japan, South America, Hawaii, etc. The first association in America was organized at Montreal in 1857; the first in the United States at Boston a few months later. The year following, associations were established at New York, Washington, Buffalo and Baltimore. There are now in the United States and Canada 1,273 associations with an aggregate membership of about 195,000.

Who can estimate the value of the influence which has already emanated from the Young Mens' Christian Association, and shall not its influence continue to increase to all future generations? Have not those who have so generously given of their influence and means for the benefit of our beloved institution already been amply repaid for their generosity?

Let me quote a paragraph written by a business man: "The growth and development of the Young Mens' Christian Association is the religious marvel of this century, and its business-like methods, directness of application and its capacity to meet one of the greatest needs of our times, it is marvel of practical wisdom. The Young Mens' Christian Association had its beginning in the mind of a Christian business man, and it had its beginning in this country with men of the same kind. Business men have furnished means, advice and aid all through its development, and have given it many a local habitation. The Young Mens' Christian Association needs the sympathy and aid of every class in the community to enable it to do its best and most complete work, but it especially commends itself to the generous support of business men. It works directly in the line of their interests by attracting young men to that which is good, and educating them in ways that make them competent and faithful. It helps to give character to the community. The aid of the best and busiest business men is needed to bring to the association the wise counsel and needed financial support necessary to assure their increased efficiency and usefulness."

We are entering upon a new year. It is well for us that our mortal life is divided into periods, for their return bids us pause a moment. Especially do we recognize this as year meets year, the old passing out, the

new passing in. What have we accomplished in all these twelve months? Nothing compared to what we wish we had. The days have sped so rapidly, we can scarcely believe all have gone. The past has made an impression on us which will be lasting. Some memo-ries, doubtless, we would gladly blot out. We have failed in some points, but we will take into the new year the sweet assurance of God's guiding love. Let us take for our watchword for the coming year: "This one thing I do, forgetting those things which are behind and reaching forth unto those things, which are before, I press toward the mark for the prize of the high calling of

Mr. T. R. Walker the newly elect-ed President then delivered his address, which we are compelled to hold over from this issue.

The standing committees for the year were next announced. A hymn "Oh, where are the reapers" was sung and then ice cream and cake was handed around, social conversation bringing a pleasant evening to

AGENTS FOR THE DAVIDSON STEAM

THE only Steam Pump made that can be run at high piston speed, without shock, and with safety to the machine. Piston rods, stuffing boxes, valve seats, stems and lining of water cylinders are of the best composition metal U. S. Standard. THESE Pumps have been adopted by the United States Government for use on all their Cruisers, this demonstrates their undoubted superiority over all other pumps.

GOLD Medal was awarded this Pump by the Massachusetts Charitable Mechanic Association, one of, if not A the oldest of its kind in the United States-money can not buy a gold medal from this Association,-merit alone secures it, and it was won from a large number of exhibitors of steam pumps.

BROOKLYN, N. Y. January 8th, 1890.
